Final:

The cleansing ritual was started upon all of the team arriving at the home and a standard equipment check was performed. On the request of those involved with the cleansing all pictures were centered on the object to be cleansed. As the ritual was taking place several interesting photographs were taken showing an “encapsulation” as it were of the said entity. (Refer to the submitted photographs) This was the unusual evidence that was captured at this cleansing. A follow up visit was held with the client and she has assured us that there has been no activity in the home since that night.
