Team Rally Point & Monitoring Station

Kitchen / Main Floor
Operations / Technician – Chris C. / Chris F.

Location Key:

Each team was given entire area coverage of the residence during each hour long rotation, with a 15 minute break in between each round for refit and reload of equipment. On the last rotation the entire team positioned in stationary locations for observation and notation.

Alpha – Kristie, Deana, Wendy

Bravo – Kevin, Rita

Team Rotation:

23:00 – 00:00 – Setup / Briefing
00:00 – 01:00 – Rotation #1 Alpha
01:15 – 02:15 – Rotation #2 Bravo
02:30 – 03:30 – Rotation #3 All team members.
03:30– 04:30 – Equipment Breakdown & Recover

Equipment Placement “Video”:

DVR Camera #1 – Basement

DVR Camera #2 – Master Bedroom

DVR Camera #3 – Bedroom

DVR Camera #4 – Living Room (Main Floor)

Equipment Placement “Audio”:

Mobile Audio Units – Each investigative team had two mobile recording units on hand during each investigation rotation and area.

Note: All ‘mobile’ units were outfitted with external microphones to limit possible contamination of audio evidence.

DVR “Camera” Audio - Each DVR camera is equipped with direct feed audio to the DVR hard drive and will act as a stationary device for each camera position.

Equipment Notes / Checks:

All recording equipment was loaded with both fresh batteries and recording media according to MPI investigation protocol, and voice checks were performed for recognition and recording quality. All media transferred to digital file for review upon completion of the investigation.

Evidence Review & Findings:

EMF:

No irregular EMF readings were noted during the investigation duration, normal household baseline readings were observed at all times.

Photographs (Digital / Film):

No anomalous photographs were noted for this report.

EVP / Audio Analysis (All):

Camera #1A Audio (Stationary) – No physical evidence was captured on this device at the time of the investigation.

Camera #2A Audio (Stationary) – No physical evidence was captured on this device at the time of the investigation.

Camera #3A Audio (Stationary) – No physical evidence was captured on this device at the time of the investigation.

Camera #4A Audio (Stationary) – No physical evidence was captured on this device at the time of the investigation.

Mobile Units (All):

Notes: All analog devices were outfitted with external microphones to avoid internal machine noise and stands were used during the recording sessions to avoid handling noise.

No physical evidence was captured on any device at the time of the investigation.

Video:

Note: All cameras were hard mounted to tripods and checked prior to the start of the investigation; all cord lines were taped and marked to eliminate false camera movement.

DVR Camera #1 - No physical evidence was captured on this device at the time of the investigation.

DVR Camera #2 - No physical evidence was captured on this device at the time of the investigation.

DVR Camera #3 - No physical evidence was captured on this device at the time of the investigation.

DVR Camera #4 - No physical evidence was captured on this device at the time of the investigation.

Investigator Feeling / Personal Experiences:

(Note: Personal experiences cannot in itself determine paranormal activity in a location, unless documented by video or audio equipment)

Chris C. – No personal Experiences to report.

Chris F. - No personal Experiences to report.

Kevin – No personal Experiences to report.

Kristie – We kept hearing noises from one of the two bedrooms while we were on the main floor, also we all heard footsteps on a wood floor when there was no one moving.

Deana – I heard footsteps in the main room, and while I was in the office I thought I felt something touch my arm.

Wendy – In the first rotation with my team we all heard what sounded like footsteps from the main room, also we could hear random noises coming from one of the bedrooms.

Sensitive / Medium Report:

(Note: When a sensitive / medium is used on investigations any and all claims are considered as no more than open personal experiences, and cannot in itself determine paranormal activity in a location. All claims must be supported by documented video, audio, accurate historical documentation, or client verification. The sensitive that is used is brought to the location with no prior knowledge of the location, city, client, or case file to avoid false statement)

Notes: As is protocol, the sensitive is assigned alongside an investigator that has a mobile device to record the session for review and later analysis, the below segments were taken from that audio.

Rita – (Segment #1 Digital)

When I arrived at the residence prior to entering the home my first impression was that of a male, later to middle age. The man seemed like a professional however he seems to be “sleazy” and hiding something bordering on illegal behavior. As I entered the front door, I have a sense that I am losing my hearing I sensed that whoever is coming through has some problem on the left side to the back of the head that involved the hearing. It does not feel like trauma, but I can feel that it is definitely a male energy that liked to be in control. This presence feels very benign and harmless to me.

Rita – (Segment #2 Digital)

The second area that I am drawn to was the far corner of the living room near the cluster of pictures, I’m not sure as to why but I had Kevin check the EMF at that point to make sure that there were no high readings. Kevin told me at that point that it was normal.

Note: Two separate checks of this area were performed and baseline was rechecked, no unusual readings above baseline were noted.

Rita – (Segment #3 Digital)

Myself and Kevin were in the basement in the home I sensed that the homeowners were not comfortable with being in the large room, I could feel a presence that seemed to me to be pacing...The presence felt really old, almost prior to the residence was built at the same time I had this very distracted and confused. It felt like the presence could not communicate due to a possible head injury, it seemed this presence was confused and could not keep a straight thought pattern I did not feel at any time that it was malicious in nature.

It was odd that I kept feeling like the presence was pacing almost in a circle, this to me seems to be a constant thing that keeps happening even during the day. It seemed that after I left that area and went upstairs that I wasn’t feeling as distracted as before. It felt like that the presence was trying to communicate with the residence but had no clear message almost like the energy was frustrated. We moved into the short hallway leading into the garage and I could sense that the homeowners were not comfortable in this area; it would not surprise me if they had not seen a person in looking out a window here.

Rita – (Segment #3 Digital) Cont.:

It is strange because it feels to me like it was from before this residence was here, when I arrived at the home it was not the house that I had sensed on the property.

We moved to the upstairs, and I sensed a third presence... A male with a beard or had to shave a lot with dark hair who may or may not be tied to someone in the home, this male seems to be protective in nature. It feels to me like it could be a father or grandfather upstairs. We moved into the bathroom, and I feel like the homeowners may have some activity in this area as well it would surprise me if there wasn't. Things like footsteps, feeling like being watched etc.

In the bathroom I'm feeling like the homeowners may be seeing lights going off and on? I feel very comfortable in this area, no bad or harmful feelings whatsoever. It seems like there may be a female presence here as well possibly 90 to 100 years in the past, from the area but not exactly tied to the home I can't get any details more than that. When the round was over I was able to talk briefly with the homeowner and describe what I had felt, I sensed that nothing in the house was malicious or harmful in any way.

Final:

On this case per the clients request we brought in a sensitive to "read" the home and she was able to pick up on a few things that may be causing the activity in the home. (We cannot verify the claims at this time) Unfortunately we were unable to document or capture any evidence that can support the claims of activity on any of our recording devices present. We cannot at this time label this location as having paranormal activity but we will continue to further work with the client to try and further substantiate their claims of a haunting. This report and its findings will be presented to client at a meeting within the next two weeks.
